

LIBBEY

THE SPIRIT of tradition

TOP SHELF TEQUILA EXPERIENCES WITH LIBBEY

Shown: Jicara Agave Cocktail No. 1009413

TEQUILA IS FINALLY COMMANDING THE RESPECT IT DESERVES.

Once the preferred party drink, the national beverage of Mexico is taking its place on the top shelf as consumers seek increasingly premium drinking experiences.

With handmade heritage, deep cultural roots and incredible versatility, high-end tequilas are quickly amassing a huge following, and the industry is poised for major growth through the end of the decade.

Today's tequila drinker is more sophisticated than ever, interested in discovering new brands and innovative cocktails. Expanding your tequila selection can help your bar or restaurant stay on top of the trend and introduce guests to a wide range of tequila styles and flavors.

Whether you're serving tequila on its own or as the foundation for cocktails like the classic margarita, Libbey glassware can help you create signature presentations worthy of this signature spirit.

HOW *to* SERVE

There's no wrong way to enjoy tequila. Here are just a few ways to introduce this handcrafted spirit to your guests.

No.1 Shoot

With a slice of lime in one hand and salt in the other, it's the most celebratory way to enjoy tequila. Salud!

No.3 Savor

Guests can explore a range of tequila with tasting flights that showcase the diversity of Mexico's national spirit and turn tequila beginners into tequila lovers.

No.2 Sip

Good quality tequila is meant to be savored slowly. The pros' preferred tasting method captures the complex aromas and unique flavors of every blend.

No.4 Stir

From the classic margarita to palomas, negronis and the tequila sunrise, cocktails are a perfect introduction to the world of tequila.

Know your tequila

The flavor, color and body of fine tequila comes not only from its ingredients, terroir and production method, but how long it has been aged:

◆ Blanco

These unaged tequilas have a light, citrusy or floral flavor. They can be enjoyed on their own or in mixed drinks. This is tequila in its purest form.

◆ Reposado

Aged for just a few months to a year in oak barrels, reposado tequilas have a soft but spicy flavor perfect for margaritas.

◆ Añejo

Made to savor, this golden-hued tequila has been aged one to three years in oak barrels and has a sweet, oaky finish. The relatively new extra añejo label is given to tequilas aged over three years.

Shown: Jicara Agave Cocktail No. 1009413

A recent poll found that 64% of U.S. consumers ages 21-34 and 52% overall are willing to pay extra for higher-quality drinks like tequila.

THE MAKING *of tequila*

1. Agave plants are harvested and the leaves are separated from the core, or piña.
2. The piñas are baked in special brick ovens called hornos or modern steel ovens. (Historically, the agave was baked in rock-lined pits.)
3. Next, the agave juice is extracted, either with a traditional stone wheel called a tahona or an industrial shredder.
4. The extracted juice, or mosto, is fermented with yeast and water in large wooden barrels or steel tanks.
5. This mixture is then distilled twice to purify the liquid and concentrate the alcohol.
6. Finally, the finished product is aged in oak barrels for at least 14 days to imbue the tequila with unique flavor.

Shown: Coupe No. 9329

WHAT MAKES *tequila, tequila?*

Officially, tequila must be produced in one of five Mexican states (Jalisco, Michoacán, Guanajuato, Nayarit or Tamaulipas) from the blue agave plant. Though any spirit made with at least 51% blue agave is considered tequila, the best tequilas are 100% blue agave.

Want to know for sure if your tequila is legit?

Look for the “NOM” – or Norma Oficial Mexicana – on the bottle. This number (assigned by the Mexican government) certifies that it’s authentic Mexican-made tequila.
