Varying the height of elements in your design can create dimension that adds visual interest. It also can help you maximize your available table space, especially ideal in tight spaces.

SUPERBOX SYSTEM

Versatile boxes can be used on their own and can integrate for anything from a simple display to elaborate installations.

STAND

Flexibly create dramatic multi-level displays that also maximize your table space.

COOLING SYSTEM

Provide self-contained units for displaying, covering and keeping your cuisine and drinks cool.

The metal buffet stand/ basket serves cuisine on its own and doubles as a stand for other serving pieces. Its intricate cut metal design adds aesthetic intrigue, available in chrome or black.

(p. 50)

SUPERBOX SYSTEM

These stackable and non-slip boxes can be connected to flat GN trays and also can be used individually. Flipping them over allows you to use them as either a flat surface or as a basket. They also connect horizontally with "bridge" pieces to allow for the creation of anything from elaborate installations to a simple display. Their casual, natural aesthetic lends itself to a relaxed, fresh market feel.

PRODUCT COMPATIBILITY

PLUS – Trend-forward, high-style buffet system with interconnecting rings for building with round and square pieces.

Superbox – Versatile, multipurpose boxes build vertically or horizontally with locking corner notches, creating an integrated, unified appearance; containers flip, stack and connect.

GN Platform – Modular products in industry-standard sizes provide extensive versatility with other APS products, as well as with your existing collections.

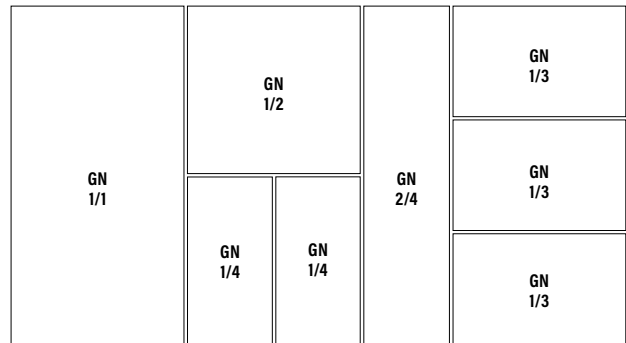

PURE – To create unlimited combinations, product focuses on streamlining staff operation.

Independent – Freestanding units that are not part of any system. They work beautifully on their own or as a complement to a more sophisticated display.

GN Sizing

Many APS® Germany products come in standard European GN (gastronorm) sizes, which are of comparable dimensions and usually interchangeable with U.S. food / table pan sizes of the corresponding fraction. This lets you use them with your existing collections. For example, a 1/2 GN roughly corresponds to a 1/2 U.S. food pan. See the chart below for the range of GN sizes offered by APS.
