DINNERWARE

# a fresh look for intuitive design

Donna Senior dinnerware helps you create a more confident, social and enjoyable dining experience for all.

Enhanced with discrete functional aids in shape and color, this thoughtfully designed collection makes dining easier for people with reduced vision, mobility and motor skills – without calling attention.

Like all Libbey® Intuitive™ Diningware, the emphasis has been placed on helping you facilitate an experience that comes easily and naturally for your diners.

 **SCHÖNWALD**  
Germany

Produced in Germany in one of the world's most advanced facilities, Donna Senior dinnerware by SCHÖNWALD is made for the intensity of foodservice use. Twice fired at over 2500°F, its extremely hard glaze ensures exceptional scratch resistance and durability – confidently backed with a lifetime no-chip warranty.

Available in white and four high-contrast color band options, this attractive range of options helps you accommodate the diverse needs of your diners while also letting you create a stylish, modern look. These bands are fused into the glaze itself for permanent durability.

 VISION

## an eye for empathy

**For many aging diners, declining vision is a fact of life. They may see colors only dimly, and often are only able to recognize shapes as a blur.**

Donna Senior's vibrant rings of color are an attractive way to make it easier for diners to see the edge of the eating area, where a plate gets deeper or where to place their mug on a saucer. By mitigating this frustrating obstacle, those with poor eyesight can again focus on what they love about dining – whether with a quiet drink of tea or a lively meal with friends.

Dividers are ideal for separating wet sides or other foods from the main dish, simplifying portion control and making it easier for diners to push food onto a utensil.

Donna Senior is based on SCHÖNWALD's popular Donna pattern. It adds subtle functional aids that ease use for your diners, while still allowing both designs to mix-and-match beautifully.

For instance, the Donna Senior special mug adds color-banded visual cues and a larger handle than the Donna mug.

### GRIP
