Trend Report Fall 2025

Don't just give your guests a meal – give them an experience.

When you enhance your tabletop with color, texture or pattern, they can engage with their food and drink in a new way.

Think of these one-of-a-kind tableware pieces as your marketing secret weapon, encouraging guests to post on social, tell their friends about your brand and drive more customers to your space.

Be inspired by the selections shown here, then **connect with Libbey to bring the trend to life in your space with a free sample.**

A taste of the rainbow

Science says that color can affect our mood. Dark and dramatic or light and bright, use hues to set the tone for the meal ahead.
